1. Identification

Product identifier  Castin’ Craft Catalyst
Other means of identification
   SDS number      7806910
   Product code    4636, 46388, 56362, 34016, 34032, 34128, MICHAELS SKUs:55815
Recommended use   Casting Resin Catalyst Agent
Recommended restrictions  None known.
Manufacturer/Importer/Supplier/Distributor information
   Manufacturer      Environmental Technology, Inc.
   Company name      300 S. Bay Depot Road
   Address           Fields Landing
   Telephone number  001 707-443-9323
   E-mail            mail@eti-usa.com
   Contact person    Technical Director
   Emergency phone number  800-424-9300 (CHEMTREC)

2. Hazard(s) identification

Physical hazards  Organic peroxides
Health hazards
   Acute toxicity, oral Type D
   Skin corrosion/irritation Category 4
   Serious eye damage/eye irritation Category 1
Environmental hazards  Not classified.

Label elements

Signal word  Danger
Hazard statement  Heating may cause a fire. Harmful if swallowed. Causes severe skin burns and eye damage.
Precautionary statements

   Prevention
      Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Keep/Store away from clothing and other combustible materials. Keep only in original container. Do not breathe mist or vapour. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.

   Response
      In case of fire: Use appropriate media to extinguish. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE/doctor. Specific treatment (see this label).

   Storage
      Store locked up. Store at temperatures not exceeding 25°C / 77°F. Store in a well-ventilated place. Protect from sunlight. Store separately.

   Disposal
      Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards  None known.
Supplemental information  Not applicable.
3. Composition/information on ingredients

</tbody>
</table>

Composition comments: All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

**Inhalation**
Remove victim to fresh air and keep at rest in a position comfortable for breathing. For breathing difficulties, oxygen may be necessary. Get medical attention if symptoms occur.

**Skin contact**
Immediately flush with plenty of water for at least 15 minutes. Take off immediately all contaminated clothing. Get medical attention immediately. Wash contaminated clothing before reuse.

**Eye contact**
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control centre immediately.

**Ingestion**
Rinse mouth. Do NOT induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Never give anything by mouth to a victim who is unconscious or is having convulsions. Call a poison control centre immediately.

**Most important symptoms/effects, acute and delayed**
Contact with this material will cause burns to the skin, eyes and mucous membranes. May have a corrosive effect on the digestive canal.

**Indication of immediate medical attention and special treatment needed**
Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

**General information**
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

**Suitable extinguishing media**

**Unsuitable extinguishing media**
Water. Do not use water jet as an extinguisher, as this will spread the fire.

**Specific hazards arising from the chemical**
Contains an organic peroxide. Strong oxidizer - contact with other material may cause fire. During fire, gases hazardous to health may be formed. Heat may cause the containers to explode. The heat of decomposition of the peroxides adds to the heat of the fire. Dry chemical fire extinguishing agent may catalyze the decomposition.

**Special protective equipment and precautions for firefighters**
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

**Fire fighting equipment/instructions**
In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tanks due to fire. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.

**Specific methods**
Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards**
Heating may cause a fire.

6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**
Keep unnecessary personnel away. Wear protective clothing as described in section 8 of this safety data sheet. Ensure adequate ventilation. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Do not breathe mist or vapour. Do not get in eyes, on skin, on clothing. Keep out of low areas. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up

This product is miscible in water. Refer to attached safety data sheets and/or instructions for use. Ventilate area. Extinguish or remove all ignition sources. Remove or isolate flammable and combustible materials. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Use water spray to reduce vapours or divert vapour cloud drift. Prevent entry into waterways, sewers, basements or confined areas. Following product recovery, flush area with water.

Never return spills to original containers for re-use. Collect and dispose of spillage as indicated in section 13 of the SDS.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground. Runoff from fire control or dilution water may be corrosive and/or toxic and cause pollution. Avoid discharge into storm drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Provide adequate ventilation. Avoid breathing mist or vapour. Do not get in eyes, on skin, or on clothing. Keep away from all ignition sources including heat, sparks and flame. When using spray equipment, never spray raw MEKP into curing or in to raw resin of flues. Keep out of reach of children. Wear appropriate personal protective equipment (See Section 8). Wash hands thoroughly after handling. Observe good industrial hygiene practices. Do not handle roughly. Avoid shock, dropping and dragging etc.

Conditions for safe storage, including any incompatibilities

Avoid contact with combustible materials (hay, grain, diesel, etc.). Keep out of the reach of children. Keep in the original container. Store in tightly closed original container in a dry, cool and well-ventilated place. Store away from incompatible materials, see Section 10 of the SDS. Store locked up. Keep away from heat, sparks and open flame. Protect from direct sunlight.

### Exposure guidelines

Use personal protective equipment as required. Keep working clothes separately.
Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product. Provide adequate ventilation and minimise the risk of inhalation of vapours.

Individual protection measures, such as personal protective equipment

Eye/face protection

Wear safety glasses with side shields (or goggles) and a face shield.

Skin protection

Hand protection

Chemical resistant gloves.

Other

Wear appropriate chemical resistant clothing. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material. Wear appropriate chemical resistant clothing to prevent any possibility of skin contact.

Respiratory protection

In case of insufficient ventilation, wear suitable respiratory equipment. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Wash at the end of each work shift and before eating, smoking or using the toilet.

9. Physical and chemical properties

Appearance

Water white liquid.

Physical state

Liquid.

Form

Liquid.

Colour

Clear.

Odour

Slight.

Other information

Explosive properties Not explosive.
Oxidising properties Not oxidising.
VOC 3.7 %

10. Stability and reactivity

Reactivity May form peroxides. Read and follow manufacturer's recommendations.
Chemical stability Stable under recommended storage and use conditions. Please read and follow all instructions.
Possibility of hazardous reactions Hazardous polymerisation does not occur.
Conditions to avoid Avoid temperatures exceeding the flash point. Contact with incompatible materials. Heat, sparks, flames, elevated temperatures. Protect against direct sunlight.
Hazardous decomposition products When heated to decomposition the product emits acrid smoke and irritating fumes.

11. Toxicological information

Information on likely routes of exposure

Inhalation Under normal conditions of intended use, this material is not expected to be an inhalation hazard. May cause irritation to the respiratory system. Prolonged inhalation may be harmful.
Skin contact Causes severe skin burns.
Eye contact Causes serious eye damage.
Ingestion Under normal conditions of intended use, this material does not pose a risk to health. May cause digestive tract burns. Harmful if swallowed.

Symptoms related to the physical, chemical and toxicological characteristics

Contact with this material will cause burns to the skin, eyes and mucous membranes. May have a corrosive effect on the digestive canal.

Information on toxicological effects

Acute toxicity Harmful if swallowed. May cause digestive tract burns.
Skin corrosion/irritation Causes severe skin burns and eye damage.
Serious eye damage/eye irritation Causes serious eye damage.

Respiratory or skin sensitisation

Canada - Alberta OELs: Irritant

Dimethyl phthalate (CAS 131-11-3) Irritant
Hydrogen peroxide (CAS 7722-84-1) Irritant

Respiratory sensitisation Based on available data, the classification criteria are not met.
Skin sensitisation Not classified as a sensitiser.
Germ cell mutagenicity Based on available data, the classification criteria are not met.
Carcinogenicity This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

ACGIH Carcinogens

Hydrogen peroxide (CAS 7722-84-1) A3 Confirmed animal carcinogen with unknown relevance to humans.

Canada - Manitoba OELs: carcinogenicity

Hydrogen peroxide (CAS 7722-84-1) Confirmed animal carcinogen with unknown relevance to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Hydrogen peroxide (CAS 7722-84-1) 3 Not classifiable as to carcinogenicity to humans.

Reproductive toxicity Based on available data, the classification criteria are not met.
Specific target organ toxicity - single exposure Not classified.
Specific target organ toxicity - repeated exposure Not classified.
Aspiration hazard Not an aspiration hazard.
Chronic effects Prolonged inhalation may be harmful.
12. Ecological information

**Ecotoxicity**
Expected to be harmful to aquatic organisms.

**Persistence and degradability**
No data is available on the degradability of this product.

**Bioaccumulative potential**
No data available on bioaccumulation.

**Partition coefficient n-octanol / water (log Kow)**
- Dimethyl phthalate (CAS 131-11-3): 1.6
- Methyl ethyl ketone (CAS 78-93-3): 0.29

**Mobility in soil**
No data available.

**Other adverse effects**
None known.

13. Disposal considerations

**Disposal instructions**
Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations.

**Local disposal regulations**
Dispose in accordance with all applicable regulations.

**Hazardous waste code**
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

**Waste from residues / unused products**
Dispose of in accordance with local regulations. Do not allow this material to drain into sewers/water supplies.

**Contaminated packaging**
Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information

**TDG**
- **UN number**: UN3105
- **UN proper shipping name**: ORGANIC PEROXIDE TYPE D, LIQUID (Methyl Ethyl Ketone Peroxide <40%)
- **Transport hazard class(es)**
  - **Class**: 5.2
  - **Subsidiary risk**: -
  - **Packing group**: II
  - **Environmental hazards**: No
  - **Special precautions for user**: Read safety instructions, SDS and emergency procedures before handling.

**IATA**
- **UN number**: UN3105
- **UN proper shipping name**: Organic peroxide type D, liquid (Methyl Ethyl Ketone Peroxide <40%)
- **Transport hazard class(es)**
  - **Class**: 5.2
  - **Subsidiary risk**: -
  - **Packing group**: Not available.
  - **Environmental hazards**: No
  - **ERG Code**: 5L
  - **Special precautions for user**: Read safety instructions, SDS and emergency procedures before handling.

**IMDG**
- **UN number**: UN3105
- **UN proper shipping name**: ORGANIC PEROXIDE TYPE D, LIQUID (Methyl Ethyl Ketone Peroxide <40%)
- **Transport hazard class(es)**
  - **Class**: 5.2
  - **Subsidiary risk**: -
  - **Packing group**: Not available.
  - **Environmental hazards**: No
  - **Marine pollutant**: F-J, S-R
  - **EmS**: Not established.
  - **Special precautions for user**: Read safety instructions, SDS and emergency procedures before handling.

15. Regulatory information

**Canadian regulations**
This product has been classified in accordance with the hazard criteria of the HPR and the SDS contains all the information required by the HPR.
Controlled Drugs and Substances Act
Not regulated.

Export Control List (CEPA 1999, Schedule 3)
Not listed.

Greenhouse Gases
Not listed.

Precursor Control Regulations
Methyl ethyl ketone (CAS 78-93-3) Class B

International regulations

Stockholm Convention
Not applicable.

Rotterdam Convention
Not applicable.

Kyoto protocol
Not applicable.

Montreal Protocol
Not applicable.

Basel Convention
Hydrogen peroxide (CAS 7722-84-1)
