SAFETY DATA SHEET

1. Identification
Product identifier

EasySculpt Clay Part A (Resin)

Other means of identification
SDS number

02616, 02664

Recommended use
Arts and Crafts

Recommended restrictions
None known.

Manufacturer/Importer/Supplier/Distributor information

Company name
Environmental Technology, Inc.

Address
300 S. Bay Depot Road
Fields Landing
CA 95537

Telephone
Telephone number
707-443-9323

E-mail
mail@eti-usa.com

Contact person
Technical Director

Emergency phone number
CHEMTREC
800-424-9300

2. Hazard(s) identification

Physical hazards

Not classified.

Health hazards

Skin corrosion/irritation
Category 2

Serious eye damage/eye irritation
Category 2A

Sensitization, skin
Category 1

OSHA defined hazards

Not classified.

Label elements

Signal word
Warning

Hazard statement
Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation.

Precautionary statement

Prevention
Avoid breathing mist or vapor. Wear protective gloves/eye protection. Contaminated work clothing must not be allowed out of the workplace. Wash thoroughly after handling.

If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Specific treatment (see this label). Take off contaminated clothing and wash it before reuse.

Response

Storage
Store away from incompatible materials.

Disposal
Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC)

None known.

Supplemental information

Not applicable.

3. Composition/information on ingredients

Mixtures
Proprietary Epoxy Resin

Proprietary Propylene Carbonate Compound

Proprietary Amorphous Silica

Proprietary Talc

Proprietary Crystalline Silica

The identities of the materials in this product are withheld as a trade secret (29CFR1910.1210(i)) and are available to a physician or paramedical personnel in a emergency situation.

Composition comments
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Inhalation
Move to fresh air. Call a physician if symptoms develop or persist. Get medical attention if any discomfort continues.

Skin contact
Remove contaminated clothing. Wash skin thoroughly with soap and water for several minutes. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

Eye contact
Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists.

Ingestion
Rinse mouth. Never give anything by mouth to a victim who is unconscious or is having convulsions. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed
Contact may produce eye irritation with associated redness, swelling, tears and pain. Contact causes skin irritation. May cause sensitization by skin contact. Symptoms include redness, itching and pain. Rash. Dermatitis.

Indication of immediate medical attention and special treatment needed
Exposure may aggravate pre-existing skin disorders. Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media
Water. Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed.

Special protective equipment
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire-fighting equipment/instructions
Move container from fire area if it can be done without risk.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards
No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Avoid contact with skin and eyes. Avoid inhalation of vapors or mists. Ensure adequate ventilation. Wear protective clothing as described in Section 8 of this safety data sheet. Keep unnecessary personnel away. Local authorities should be advised if significant spillages cannot be contained. Keep unnecessary personnel away. This product is miscible in water. Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Methods and materials for containment and cleaning up
Never return spills in original containers for re-use.

Environmental precautions
Avoid discharge into drains, water courses or onto the ground. Avoid discharge into storm drains, water courses or onto the ground.
7. Handling and storage

**Precautions for safe handling**
Avoid breathing mists or vapors. Avoid contact with eyes, skin, and clothing. Keep out of reach of children. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

**Conditions for safe storage, including any incompatibilities**
Store away from incompatible materials (see Section 10 of the SDS). Store in tightly closed original container in a dry, cool and well-ventilated place. Read and follow manufacturer’s recommendations.

8. Exposure controls/personal protection

**Occupational exposure limits**

**US. OSHA Table Z-3 (29 CFR 1910.1000)**

**Biological limit values**
No biological exposure limits noted for the ingredient(s).

**Exposure guidelines**
No exposure standards allocated. Use personal protective equipment as required. Keep working clothes separately.

**Appropriate engineering controls**
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

**Individual protection measures, such as personal protective equipment**

**Eye/face protection**
Wear safety glasses with side shields (or goggles).

**Skin protection**
Chemical resistant gloves.

**Hand protection**
Wear appropriate chemical resistant clothing. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material. Wear appropriate chemical resistant clothing to prevent any possibility of skin contact.

**Other**

**Respiratory protection**
No specific recommendation made, but respiratory protection may still be required under exceptional circumstances when excessive air contamination exists.

**Thermal hazards**
Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations
When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace. Wash at the end of each work shift and before eating, smoking and using the toilet.

10. Stability and reactivity

Reactivity
The product is stable and non-reactive under normal conditions of use, storage and transport. Read and follow manufacturer's recommendations.

Chemical stability
Stable under normal temperature conditions and recommended use.

Possibility of hazardous reactions
Hazardous polymerization does not occur.

Conditions to avoid
Contact with incompatible materials. Avoid high temperatures.

Incompatible materials
Strong oxidizing agents. Reacts violently with strong acids. Reacts violently with strong bases. Avoid contact with water and liquids. Do not allow molten product to contact water or other liquids. This can cause violent reactions.

Hazardous decomposition products
No hazardous decomposition products are known.
11. Toxicological information

Information on likely routes of exposure

**Ingestion**
Under normal conditions of intended use, this material does not pose a risk to health. May be harmful if swallowed.

**Inhalation**
Under normal conditions of intended use, this material is not expected to be an inhalation hazard. Inhalation of vapors or mists of the product may be irritating to the respiratory system.

**Skin contact**
Causes skin irritation. May cause sensitization by skin contact.

**Eye contact**
Causes eye irritation.

**Symptoms related to the physical, chemical and toxicological characteristics**
Contact may produce eye irritation with associated redness, swelling, tears and pain. Causes skin irritation. May cause sensitization by skin contact. Symptoms include redness, itching and pain. Rash. Dermatitis.

Information on toxicological effects

**Acute toxicity**
Not expected to be a hazard under normal conditions of intended use. May be harmful if swallowed.

* Estimates for product may be based on additional component data not shown.

**Skin corrosion/irritation**
Causes skin irritation.

**Serious eye damage/eye irritation**
Causes eye irritation.

**Respiratory or skin sensitization**

**Respiratory sensitization**
Due to partial or complete lack of data the classification is not possible.

**Skin sensitization**
May cause sensitization by skin contact.

**Germ cell mutagenicity**
No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic. Resins of this type, liquid resins based on BisPhenolA/Epichlorohydrin (Epoxy Resin), have proved to be inactive when tested by in vivo mutagenicity assays.

**Carcinogenicity**
Product may contain small amounts of crystalline silica. Crystalline silica has been classified by IARC, NTP and ACGIH as a known human carcinogen and suspected human carcinogen respectively. Exposures to respirable crystalline silica are not expected during the normal use of this product.

**IARC Monographs. Overall Evaluation of Carcinogenicity**

NTP Report on Carcinogens
Crystalline Silica (CAS Proprietary) Known To Be Human Carcinogen.

**Reproductive toxicity**
Not classified.

**Specific target organ toxicity - single exposure**
Not classified.

**Specific target organ toxicity - repeated exposure**
Not classified.

**Aspiration hazard**
Due to the high viscosity the product is not an aspiration hazard.

**Chronic effects**
Based on available data, the classification criteria are not met.

### 12. Ecological information

#### Ecotoxicity
Expected to be harmful to aquatic organisms. May cause long-term adverse effects in the environment.

* Estimates for product may be based on additional component data not shown.

#### Persistence and degradability
No data is available on the degradability of this product.

#### Bioaccumulative potential
No data available on bioaccumulation.

#### Partition coefficient n-octanol / water (log Kow)
Propylene Carbonate Compound (CAS Proprietary) -0.41

#### Mobility in soil
No data available.

#### Other adverse effects
None known.

### 13. Disposal considerations

#### Disposal instructions
Dispose of in accordance with federal, provincial and local regulations. Do not discharge into drains, water courses or onto the ground.

#### Local disposal regulations
Dispose in accordance with all applicable regulations.

#### Hazardous waste code
Not regulated.

#### Waste from residues / unused products
Dispose of in accordance with local regulations.

#### Contaminated packaging
Dispose in accordance with applicable federal, state, and local regulations.

### 14. Transport information

#### DOT
Not regulated as dangerous goods.

#### IATA
Not regulated as dangerous goods.

#### IMDG
Not regulated as dangerous goods.

#### Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable.

### 15. Regulatory information

#### US federal regulations
This product is a “Hazardous Chemical” as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.
All components are on the U.S. EPA TSCA Inventory List.

- **TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)**
  Not regulated.

  Not listed.
CERCLA Hazardous Substance List (40 CFR 302.4)
Not listed.

Superfund Amendments and Reauthorization Act of 1986 (SARA)
Hazard categories
- Immediate Hazard - Yes
- Delayed Hazard - No
- Fire Hazard - No
- Pressure Hazard - No
- Reactivity Hazard - No

SARA 302 Extremely hazardous substance
Not listed.

SARA 311/312 Hazardous chemical
Yes

SARA 313 (TRI reporting)
Not regulated.

Other federal regulations
- Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
  Not regulated.
- Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
  Not regulated.
- Safe Drinking Water Act (SDWA)
  Not regulated.

US state regulations
- US. Massachusetts RTK - Substance List
  Amorphous Silica (CAS Proprietary)
  Crystalline Silica (CAS Proprietary)
  Talc (CAS Proprietary)
- US. New Jersey Worker and Community Right-to-Know Act
  Crystalline Silica (CAS Proprietary)
  Talc (CAS Proprietary)
- US. Pennsylvania Worker and Community Right-to-Know Law
