SAFETY DATA SHEET

1. Identification
Product identifier EasySculpt Clay Part B (Hardener)
Other means of identification
   SDS number 02616, 02664
   Product code
Recommended use Arts and Crafts
Recommended restrictions None known.
Manufacturer/Importer/Supplier/Distributor information
   Company name Environmental Technology, Inc.
   Address 300 S. Bay Depot Road
            Fields Landing
            CA 95537
   Telephone Telephone number 707-443-9323
   E-mail mail@eti-usa.com
   Contact person Technical Director
   Emergency phone number CHEMTREC 800-424-9300

2. Hazard(s) identification
Physical hazards
Health hazards
   Acute toxicity, oral Category 4
   Skin corrosion/irritation Category 1
   Serious eye damage/eye irritation Category 1
   Sensitization, skin Category 1
   Reproductive toxicity (fertility, the unborn child) Category 2
OSHA defined hazards Not classified.
Label elements
   Danger
   Hazard statement Harmful if swallowed. Causes severe skin burns and eye damage. May cause an allergic skin reaction. Suspected of damaging the unborn child. Suspected of damaging fertility.
   Precautionary statement
      Prevention Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection.
      Response If swallowed: Rinse mouth. Do not induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. Specific treatment (see this label).
      Storage Store locked up.
      Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.
   Hazard(s) not otherwise classified (HNOC) None known.
   Supplemental information None known.

EasySculpt Clay Part B (Hardener) SDS US
920013 Version #: 01 Revision date: - Issue date: 06-May-2016 1 / 9

The identities of the materials in this product are withheld as a trade secret (29CFR1910.1210(i)) and are available to a physician or paramedical personnel in an emergency situation.

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Inhalation

If inhaled, remove to fresh air. For breathing difficulties, oxygen may be necessary. Get medical attention if symptoms occur.

Skin contact

Wash contaminated clothing before reuse. Rinse skin thoroughly with lukewarm water for at least 15 minutes. Call a physician or poison control center immediately.

Eye contact

Immediately flush eyes with plenty of water for at least 15 minutes, lifting upper and lower eyelids occasionally. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.

Ingestion

Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Call a physician or Poison Control Center immediately.

Most important symptoms/effects, acute and delayed

Contact can cause corrosive burns, corneal damage, and blindness. Itching, redness, swelling, burning or blistering of skin. Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly the digestive tract. May cause an allergic skin reaction. Dermatitis. Rash. Suspected of damaging fertility or the unborn child.

Indication of immediate medical attention and special treatment needed

Exposure may aggravate pre-existing skin disorders. Treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire-fighting measures

Suitable extinguishing media

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media

Water. Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical

During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire-fighting equipment/instructions

Move container from fire area if it can be done without risk.

Specific methods

Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards

No unusual fire or explosion hazards noted.
6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Ensure adequate ventilation. Do not get in eyes, on skin, on clothing. Keep unnecessary personnel away. Keep out of low areas. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. Do not breathe dust. Avoid dust formation.

Methods and materials for containment and cleaning up
Keep unnecessary personnel away. This product is miscible in water. Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Collect and dispose of spillage as indicated in section 13 of the SDS. Prevent entry into waterways, sewer, basements or confined areas.

Environmental precautions
Never return spills to original containers for re-use.
Avoid discharge into drains, water courses or onto the ground. Contact local authorities in case of spillage to drain/aquatic environment.

7. Handling and storage

Precautions for safe handling
Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. Do not get this material in your eyes, on your skin, or on your clothing. Avoid contact during pregnancy/while nursing. Provide adequate ventilation. Use personal protective equipment as required. Wash contaminated clothing before reuse. When using, do not eat, drink or smoke. Wash hands thoroughly after handling. Avoid release to the environment. Keep out of reach of children.

Conditions for safe storage, including any incompatibilities
Keep out of the reach of children. Store locked up. Store in tightly closed original container in a dry, cool and well-ventilated place. Store away from incompatible materials, see Section 10 of the SDS.

8. Exposure controls/personal protection

### Biological limit values

No biological limit values noted for the ingredient(s).

### Exposure guidelines

No exposure standards allocated. Use personal protective equipment as required. Keep working clothes separately.

### US - California OELs: Skin designation

Glycol Ether Compound (CAS Proprietary) Can be absorbed through the skin.

### US - Tennessee OELs: Skin designation

Glycol Ether Compound (CAS Proprietary) Can be absorbed through the skin.

### US ACGIH Threshold Limit Values: Skin designation

Glycol Ether Compound (CAS Proprietary) Can be absorbed through the skin.

### US, NIOSH: Pocket Guide to Chemical Hazards

Glycol Ether Compound (CAS Proprietary) Can be absorbed through the skin.

### US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Glycol Ether Compound (CAS Proprietary) Can be absorbed through the skin.

### Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

### Individual protection measures, such as personal protective equipment

#### Eye/face protection

Wear safety glasses with side shields (or goggles).

#### Skin protection

- **Hand protection**
  
  Chemical resistant gloves.

- **Other**

  Wear appropriate chemical resistant clothing. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material. Wear appropriate chemical resistant clothing to prevent any possibility of skin contact.

#### Respiratory protection

If ventilation is insufficient, suitable respiratory protection must be provided.

#### Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

#### General hygiene considerations

When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace. Wash at the end of each work shift and before eating, smoking and using the toilet.

### 9. Physical and chemical properties

#### Appearance

- **Physical state**: Solid.

#### Form

- **Color**: Off-white

#### Odor

- **Odor threshold**: Minimal, slight orange.

#### pH

- **pH**: Not available.

#### Melting point/freezing point

- **Melting point/freezing point**: Not available.

#### Initial boiling point and boiling range

- **Initial boiling point and boiling range**: Not available.

#### Flash point

- **Flash point**: Not available.
Evaporation rate Not available.
Flammability (solid, gas) Not available.

Upper/lower flammability or explosive limits
Flammability limit - lower (%) Not available.
Flammability limit - upper (%) Not available.
Explosive limit - lower (%) Not available.
Explosive limit - upper (%) Not available.

Vapor pressure Not available.
Vapor density > 1 (air=1).
Relative density Not available.

Solubility(ies)
Solubility (water) Slightly Soluble (0.1-1%) Not available.
Partition coefficient (n-octanol/water) Not available.

Auto-ignition temperature Not available.
Decomposition temperature Not available.
Viscosity Not available.

10. Stability and reactivity
Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport. Read and follow manufacturer’s recommendations.
Chemical stability Stable under normal temperature conditions and recommended use.
Possibility of hazardous reactions Hazardous polymerization does not occur.
Conditions to avoid Reacts violently with strong acids. This product may react with oxidizing agents. Do not mix with other chemicals. Contact with incompatible materials. Avoid incompatible materials and intense heat.
Hazardous decomposition products None expected under normal conditions of use.

11. Toxicological information
Information on likely routes of exposure
Ingestion Under normal conditions of intended use, this material does not pose a risk to health. Harmful if swallowed. Causes digestive tract burns.
Inhalation Under normal conditions of intended use, this material is not expected to be an inhalation hazard. When heated, the vapors/fumes given off may cause respiratory tract irritation.
Skin contact Causes severe skin burns. May cause an allergic skin reaction.
Eye contact Causes serious eye damage.

Symptoms related to the physical, chemical and toxicological characteristics
Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly the digestive tract. May cause an allergic skin reaction. Dermatitis. Rash. Contact can cause corrosive burns, corneal damage, and blindness. Itching, redness, swelling, burning or blistering of skin.

Information on toxicological effects
Acute toxicity Harmful if swallowed. May cause digestive tract burns.

* Estimates for product may be based on additional component data not shown.

**Skin corrosion/irritation**
- Corrosive to skin and eyes.

**Serious eye damage/eye irritation**
- Causes serious eye damage.

**Respiratory or skin sensitization**
- Respiratory sensitization: Due to partial or complete lack of data the classification is not possible.
- Skin sensitization: May cause an allergic skin reaction.

**Germ cell mutagenicity**
- No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

**Carcinogenicity**
- Product may contain small amounts of crystalline silica. Crystalline silica has been classified by IARC, NTP and ACGIH as a known human carcinogen and suspected human carcinogen respectively. Exposures to respirable crystalline silica are not expected during the normal use of this product.

**IARC Monographs. Overall Evaluation of Carcinogenicity**
- Crystalline Silica (CAS Proprietary): 1 Carcinogenic to humans.
- Non Crystalline Silica (CAS Proprietary): 3 Not classifiable as to carcinogenicity to humans.
- Talc (CAS Proprietary): 3 Not classifiable as to carcinogenicity to humans.

**NTP Report on Carcinogens**
- Crystalline Silica (CAS Proprietary): Known To Be Human Carcinogen.

**Reproductive toxicity**
- Possible reproductive hazard. Possible risk of harm to the unborn child. Possible risk of impaired fertility.

**Specific target organ toxicity - single exposure**
- Not classified.

**Specific target organ toxicity - repeated exposure**
- Not classified.

**Aspiration hazard**
- Due to the high viscosity the product is not an aspiration hazard.

**Chronic effects**
- Prolonged exposure may cause chronic effects. Possible adverse reproductive and developmental effects.

### 12. Ecological information

**Ecotoxicity**
- Expected to be very toxic to aquatic organisms. May cause long-term adverse effects in the environment.

* Estimates for product may be based on additional component data not shown.

**Persistence and degradability**
No data is available on the degradability of this product.

**Bioaccumulative potential**
No data available on bioaccumulation.

**Mobility in soil**
No data available.

**Other adverse effects**
None known.

13. Disposal considerations

**Disposal instructions**
Dispose in accordance with applicable federal, state, and local regulations.

**Local disposal regulations**
Dispose in accordance with all applicable regulations.

**Hazardous waste code**
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

**Waste from residues / unused products**
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). Do not allow this material to drain into sewers/water supplies.

**Contaminated packaging**
Dispose in accordance with applicable federal, state, and local regulations.

15. Regulatory information

US federal regulations:
This product is considered hazardous under 29 CFR 1910.1200 (Hazard Communication).
All components are listed on or exempt from the U.S. EPA TSCA Inventory List.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)
Not regulated.

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)
Not listed.

CERCLA Hazardous Substance List (40 CFR 302.4)
Not listed.

Superfund Amendments and Reauthorization Act of 1986 (SARA)
Hazard categories:
  - Immediate Hazard - Yes
  - Delayed Hazard - Yes
  - Fire Hazard - No
  - Pressure Hazard - No
  - Reactivity Hazard - No

SARA 302 Extremely hazardous substance
Not listed.

SARA 311/312 Hazardous chemical
Yes

SARA 313 (TRI reporting)
Not regulated.

Other federal regulations:
Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
Not regulated.

Safe Drinking Water Act (SDWA)
Not regulated.
