SAFETY DATA SHEET

1. Identification

Product identifier: Envirotex Jewelry Clay Part A (Resin)

Other means of identification:
- SDS number: 702604
- Product code: 02604M, 02604, 02608, 02632, 02650.
- Recommended use: Arts and Crafts
- Recommended restrictions: None known.

Manufacturer/Importer/Supplier/Distributor information:
- Company name: Environmental Technology, Inc.
- Address: 300 S. Bay Depot Road, Fields Landing, CA 95537
- Telephone: Telephone number 707-443-9323
- E-mail: mail@eti-usa.com
- Contact person: Technical Director
- Emergency phone number: CHEMTREC 800-424-9300

2. Hazard(s) identification

Physical hazards: Not classified.

Health hazards:
- Skin corrosion/irritation: Category 2
- Serious eye damage/eye irritation: Category 2A
- Sensitization, skin: Category 1

OSHA defined hazards: Not classified.

Label elements:

Signal word: Warning

Hazard statement: Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation.

Precautionary statement:
预防
- Avoid breathing mist or vapor. Wear protective gloves/eye protection. Contaminated work clothing must not be allowed out of the workplace. Wash thoroughly after handling.
- If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention.
- If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Specific treatment (see this label). Take off contaminated clothing and wash it before reuse.

储存
- Store away from incompatible materials.

处置
- Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC): None known.

Supplemental information: Not applicable.

3. Composition/information on ingredients

Mixtures

<table>
<thead>
<tr>
<th>Chemical name</th>

</thead>
<tbody>
<tr>
<td>Epoxy Resin</td>
<td>Proprietary</td>
<td>&lt;50</td>
</tr>
</tbody>
</table>

Envirotex Jewelry Clay Part A (Resin)
Proprietary <25 Propylene Carbonate Compound
Proprietary <5 Amorphous Silica
Proprietary <1 Oxirane Compound
Proprietary <1 Talc
Proprietary < 0.1 Crystalline Silica

The identities of the materials in this product are withheld as a trade secret (29CFR1910.1210(i)) and are available to a physician or paramedical personnel in an emergency situation.

**Composition comments**

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

**Inhalation**

Move to fresh air. Call a physician if symptoms develop or persist. Get medical attention if any discomfort continues.

**Skin contact**

Remove contaminated clothing. Wash skin thoroughly with soap and water for several minutes. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

**Eye contact**

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists.

**Ingestion**

Contact may produce eye irritation with associated redness, swelling, tears and pain. Contact causes skin irritation. May cause sensitization by skin contact. Symptoms include redness, itching and pain. Rash. Dermatitis.

**Most important symptoms/effects, acute and delayed**

Exposure may aggravate pre-existing skin disorders. Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

**Indication of immediate medical attention and special treatment needed**

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

**Suitable extinguishing media**

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

**Unsuitable extinguishing media**

Water. Do not use water jet as an extinguisher, as this will spread the fire.

**Specific hazards arising from the chemical**

During fire, gases hazardous to health may be formed.

**Special protective equipment and precautions for firefighters**

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Fire fighting equipment/instructions**

Move container from fire area if it can be done without risk.

**Specific methods**

Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards**

No unusual fire or explosion hazards noted.

6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**

Avoid contact with skin and eyes. Avoid inhalation of vapors or mists. Ensure adequate ventilation. Wear protective clothing as described in Section 8 of this safety data sheet. Keep unnecessary personnel away. Local authorities should be advised if significant spillages cannot be contained.

**Methods and materials for containment and cleaning up**

Keep unnecessary personnel away. This product is miscible in water. Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Never return spills in original containers for re-use.

**Environmental precautions**

Avoid discharge into drains, water courses or onto the ground. Avoid discharge into storm drains, water courses or onto the ground.
7. Handling and storage

Precautions for safe handling
Avoid breathing mists or vapors. Avoid contact with eyes, skin, and clothing. Keep out of reach of children. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Store away from incompatible materials (see Section 10 of the SDS). Store in tightly closed original container in a dry, cool and well-ventilated place. Read and follow manufacturer’s recommendations.

8. Exposure controls/personal protection

Occupational exposure limits

Biological limit values
No biological exposure limits noted for the ingredient(s).

Exposure guidelines
No exposure standards allocated. Use personal protective equipment as required. Keep working clothes separately.

Appropriate engineering controls
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

Individual protection measures, such as personal protective equipment

Eye/face protection
Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection
Chemical resistant gloves.

Skin protection

Other
Wear appropriate chemical resistant clothing. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material. Wear appropriate chemical resistant clothing to prevent any possibility of skin contact.

Respiratory protection
No specific recommendation made, but respiratory protection may still be required under exceptional circumstances when excessive air contamination exists.

Thermal hazards
Wear appropriate thermal protective clothing, when necessary.
### General hygiene considerations

When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace. Wash at the end of each work shift and before eating, smoking and using the toilet.

### 10. Stability and reactivity

**Reactivity**

The product is stable and non-reactive under normal conditions of use, storage and transport. Read and follow manufacturer's recommendations.

**Chemical stability**

Stable under normal temperature conditions and recommended use.

**Possibility of hazardous reactions**

Hazardous polymerization does not occur.

**Conditions to avoid**

Contact with incompatible materials. Avoid high temperatures.

**Incompatible materials**

Strong oxidizing agents. Reacts violently with strong acids. Reacts violently with strong bases. Avoid contact with water and liquids. Do not allow molten product to contact water or other liquids. This can cause violent reactions.

**Hazardous decomposition products**

No hazardous decomposition products are known.
### 11. Toxicological information

#### Information on likely routes of exposure

**Inhalation**

Under normal conditions of intended use, this material is not expected to be an inhalation hazard. Inhalation of vapors or mists of the product may be irritating to the respiratory system.

**Skin contact**

Causes skin irritation. May cause sensitization by skin contact.

**Eye contact**

Causes eye irritation.

**Ingestion**

Under normal conditions of intended use, this material does not pose a risk to health. May be harmful if swallowed.

#### Symptoms related to the physical, chemical and toxicological characteristics

Contact may produce eye irritation with associated redness, swelling, tears and pain. Causes skin irritation. May cause sensitization by skin contact. Symptoms include redness, itching and pain. Rash. Dermatitis.

#### Information on toxicological effects

**Acute toxicity**

Not expected to be a hazard under normal conditions of intended use. May be harmful if swallowed.

* Estimates for product may be based on additional component data not shown.

**Skin corrosion/irritation**

Causes skin irritation.

**Serious eye damage/eye irritation**

Causes eye irritation.

**Respiratory or skin sensitization**

Due to partial or complete lack of data the classification is not possible.

**Respiratory sensitization**

May cause sensitization by skin contact.

**Skin sensitization**

No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic. Resins of this type, liquid resins based on BisPhenolA/Epichlorohydrin (Epoxy Resin), have proved to be inactive when tested by in vivo mutagenicity assays.

**Germ cell mutagenicity**

Product may contain small amounts of crystalline silica. Crystalline silica has been classified by IARC, NTP and ACGIH as a known human carcinogen and suspected human carcinogen respectively. Exposures to respirable crystalline silica are not expected during the normal use of this product.

**IARC Monographs. Overall Evaluation of Carcinogenicity**

- Amorphous Silica (CAS Proprietary) 3 Not classifiable as to carcinogenicity to humans.
- Crystalline Silica (CAS Proprietary) 1 Carcinogenic to humans.
- Talc (CAS Proprietary) 3 Not classifiable as to carcinogenicity to humans.

**NTP Report on Carcinogens**

Crystalline Silica (CAS Proprietary) Known To Be Human Carcinogen.

Not regulated.

**Reproductive toxicity**

Not classified.

**Specific target organ toxicity - single exposure**

Not classified.
Specific target organ toxicity - repeated exposure  Not classified.
Aspiration hazard  Due to the high viscosity the product is not an aspiration hazard.
Chronic effects  Based on available data, the classification criteria are not met.

12. Ecological information
Ecotoxicity  Expected to be harmful to aquatic organisms. May cause long-term adverse effects in the environment.
Persistence and degradability  No data is available on the degradability of this product.
Bioaccumulative potential  No data available on bioaccumulation.
Mobility in soil  No data available.
Other adverse effects  None known.

13. Disposal considerations
Disposal instructions  Dispose of in accordance with federal, provincial and local regulations. Do not discharge into drains, water courses or onto the ground.
Local disposal regulations  Dispose in accordance with all applicable regulations.
Hazardous waste code  Not regulated.
Waste from residues / unused products  Dispose of in accordance with local regulations.
Contaminated packaging  Dispose in accordance with applicable federal, state, and local regulations.

14. Transport information
DOT  Not regulated as dangerous goods.
IATA  Not regulated as dangerous goods.
IMDG  Not regulated as dangerous goods.
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code  Not applicable.

15. Regulatory information
US federal regulations  This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are on the U.S. EPA TSCA Inventory List.
  - TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)  Not regulated.
  - CERCLA Hazardous Substance List (40 CFR 302.4)  Not listed.
Superfund Amendments and Reauthorization Act of 1986 (SARA)
  - Hazard categories  Immediate Hazard - Yes
    Delayed Hazard - No
    Fire Hazard - No
    Pressure Hazard - No
    Reactivity Hazard - No
  - SARA 302 Extremely hazardous substance  Not listed.
  - SARA 311/312 Hazardous chemical  Yes
  - SARA 313 (TRI reporting)  Not regulated.
Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
Not regulated.

Safe Drinking Water Act (SDWA)
Not regulated.
