SAFETY DATA SHEET

1. Identification

Product identifier Ultra-Glo Hardener

Other means of identification

SDS number

00027, 00035, 00043, 00078 **Product code**

Recommended use **High Gloss Coating**

None known. **Recommended restrictions**

Manufacturer/Importer/Supplier/Distributor information

Environmental Technology, Inc. Company name

Address 300 S. Bay Depot Road

Fields Landing CA 95537

Telephone Telephone number

E-mail mail@eti-usa.com

Technical Director Contact person

CHEMTREC 800-424-9300 **Emergency phone number**

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Acute toxicity, oral Category 4

> Skin corrosion/irritation Category 1 Serious eye damage/eye irritation Category 1 Sensitization, skin Category 1 Reproductive toxicity (fertility, the unborn Category 2

child)

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Harmful if swallowed. Causes severe skin burns and eye damage. May cause an allergic skin

reaction. Suspected of damaging fertility. Suspected of damaging the unborn child.

707-443-9323

Precautionary statement

Prevention Obtain special instructions before use. Do not handle until all safety precautions have been read

and understood. Do not breathe mist or vapor. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Contaminated work clothing must not be allowed out of the

workplace. Wear protective gloves/protective clothing/eye protection.

Response If swallowed: Rinse mouth. Do not induce vomiting. If on skin (or hair): Take off immediately all

> contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. Specific treatment (see this label).

Storage

None known.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise

classified (HNOC)

Supplemental information

None known.

3. Composition/information on ingredients

Mixtures

Ultra-Glo Hardener SDS US

903574 Version #: 01 Issue date: March 22, 2016

Chemical name	CAS number	%
Polyoxypropylenediamine	Proprietary	20-60
Nonyl phenol	Proprietary	10-60
Alkyl Ether Amine	Proprietary	1-25
N-Aminoethylpiperazine	Proprietary	1-25

The identities of the materials in this product are withheld as a trade secret (29CFR1910.1210(i)) and are available to a physician or paramedical personnel in a emergency situation.

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Inhalation If inhaled, remove to fresh air. For breathing difficulties, oxygen may be necessary. Get medical

attention immediately.

Wash contaminated clothing before reuse. Rinse skin thoroughly with lukewarm water for at least Skin contact

15 minutes. Call a physician or poison control center immediately.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes, lifting upper and lower eyelids

occasionally. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician

or poison control center immediately.

Ingestion Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content

doesn't get into the lungs. Call a physician or Poison Control Center immediately.

Most important symptoms/effects, acute and delayed

Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly the digestive tract. May cause an allergic skin reaction. Dermatitis. Rash. Contact can cause corrosive burns, corneal damage, and blindness. Itching, redness, swelling, burning or blistering of

Indication of immediate medical attention and special treatment needed

Exposure may aggravate pre-existing skin disorders. Treat symptomatically. Keep victim under observation. Symptoms may be delayed.

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing

General information

media

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Water. Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical

Special protective equipment and precautions for firefighters During fire, gases hazardous to health may be formed.

Fire-fighting

equipment/instructions Specific methods

Move container from fire area if it can be done without risk.

Use standard firefighting procedures and consider the hazards of other involved materials. General fire hazards No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions. protective equipment and emergency procedures

Ensure adequate ventilation. Do not breathe mist or vapor. Avoid contact with skin and eyes. Keep unnecessary personnel away. Keep out of low areas. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up

Keep unnecessary personnel away. This product is miscible in water. Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Collect and dispose of spillage as indicated in section 13 of the SDS. Prevent entry into waterways, sewer, basements or confined areas.

Never return spills to original containers for re-use.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground. Contact local authorities in case of spillage to drain/aquatic environment.

Ultra-Glo Hardener SDS US

903574 Version #: 01 Issue date: March 22, 2016

7. Handling and storage

Precautions for safe handling Do not handle until all safety precautions have been read and understood. Do not breathe mist or

vapor. Do not get this material in your eyes, on your skin, or on your clothing. Avoid contact during pregnancy/while nursing. Provide adequate ventilation. Use personal protective equipment as required. Wash contaminated clothing before reuse. When using, do not eat, drink or smoke. Wash hands thoroughly after handling. Avoid release to the environment. Keep out of reach of

children.

Conditions for safe storage, including any incompatibilities

Keep out of the reach of children. Store locked up. Store in tightly closed original container in a dry, cool and well-ventilated place. Store away from incompatible materials, see Section 10 of the

SDS

8. Exposure controls/personal protection

Occupational exposure limits No exposure limits noted for ingredient(s).

Biological limit values No biological exposure limits noted for the ingredient(s).

Exposure guidelines No exposure standards allocated. Use personal protective equipment as required. Keep working

clothes separately.

Appropriate engineering

controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields or goggles.

Skin protection

Hand protection Chemical resistant gloves.

Other Wear appropriate chemical resistant clothing. The most suitable glove must be chosen in

consultation with the gloves supplier, who can inform about the breakthrough time of the glove material. Wear appropriate chemical resistant clothing to prevent any possibility of skin contact.

Respiratory protection If ventilation is insufficient, suitable respiratory protection must be provided.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace. Wash at the end of each work shift and before eating, smoking and using the toilet.

9. Physical and chemical properties

Appearance Viscous liquid.

Physical state Liquid.

Form Liquid. Pourable liquid.

Color Clear.

Odor Minimal. Not distinct. Ammonia-like.

Odor threshold Not available. pH >= 11.7

Melting point/freezing point

Not available.

Initial boiling point and boiling

Not available.

range

Flash point > 249.8 °F (> 121.0 °C) Closed Cup

Evaporation rate Not available.

Auto-ignition temperature Not available. Not available. **Decomposition temperature** Not available. Viscosity

10. Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

Read and follow manufacturer's recommendations.

Stable under normal temperature conditions and recommended use. Chemical stability

Possibility of hazardous

reactions

Hazardous polymerization does not occur.

Avoid temperatures exceeding the flash point. Reacts violently with strong acids. This product may Conditions to avoid

react with oxidizing agents. Do not mix with other chemicals. Contact with incompatible materials.

Avoid incompatible materials and intense heat.

Incompatible materials **Hazardous decomposition**

products

Acids. Strong oxidizing agents. Oxidizing agents. None expected under normal conditions of use.

11. Toxicological information

Information on likely routes of exposure

Ingestion Under normal conditions of intended use, this material does not pose a risk to health. Harmful if

swallowed. Causes digestive tract burns.

Inhalation Under normal conditions of intended use, this material is not expected to be an inhalation hazard.

When heated, the vapors/fumes given off may cause respiratory tract irritation.

Skin contact Causes severe skin burns. May cause an allergic skin reaction. May be harmful if absorbed

through skin.

Causes eye burns. Causes serious eye damage. Eye contact

Symptoms related to the physical, chemical and toxicological characteristics

Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly the digestive tract. May cause an allergic skin reaction. Dermatitis. Rash. Contact can cause corrosive burns, corneal damage, and blindness. Itching, redness, swelling, burning or blistering

of skin.

Information on toxicological effects

Harmful if swallowed. May be harmful if absorbed through skin. May cause digestive tract burns. **Acute toxicity**

Components **Species Test Results**

N-Aminoethylpiperazine (CAS Proprietary)

Acute Dermal

LD50 Rabbit 880 mg/kg

* Estimates for product may be based on additional component data not shown.

Skin corrosion/irritation Corrosive to skin and eyes.

Serious eye damage/eye

irritation

Causes eye burns. Causes serious eye damage.

Respiratory or skin sensitization

Respiratory sensitization Due to partial or complete lack of data the classification is not possible.

Skin sensitization May cause an allergic skin reaction.

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. Carcinogenicity

Reproductive toxicity Possible reproductive hazard. Possible risk of harm to the unborn child. Possible risk of impaired

fertility.

Specific target organ toxicity -

single exposure

Not classified.

Specific target organ toxicity -

repeated exposure

Not classified.

Aspiration hazard Due to the high viscosity the product is not an aspiration hazard.

Ultra-Glo Hardener SDS US 4/7

Prolonged exposure may cause chronic effects. Possible adverse reproductive and developmental

12. Ecological information

Ecotoxicity Expected to be very toxic to aquatic organisms. May cause long-term adverse effects in the

environment.

Test Results Components **Species**

Aquatic

Chronic

NOEC Algae Algae 0.32 mg/l, 72 hours

* Estimates for product may be based on additional component data not shown.

No data is available on the degradability of this product. Persistence and degradability

Bioaccumulative potential No data available on bioaccumulation.

Mobility in soil No data available. Other adverse effects None known.

13. Disposal considerations

Disposal instructions Dispose in accordance with applicable federal, state, and local regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

The waste code should be assigned in discussion between the user, the producer and the waste Hazardous waste code

disposal company.

Waste from residues / unused

products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions). Do not allow this material to drain into sewers/water supplies.

Contaminated packaging Dispose in accordance with applicable federal, state, and local regulations.
