1. Identification

Product identifier: Castin' Craft Catalyst

Other means of identification:

| SDS number | 7806910 |
| Product code | 46361, 46388, 56362, 34016, 34032, 34128, 46392, MICHAELS SKUs: 558155, 10415456 |

Recommended use: Casting Resin Catalyst Agent

Recommended restrictions: None known.

Manufacturer/Importer/Supplier/Distributor information

| Company name | Environmental Technology, Inc. |
| Address | 300 S. Bay Depot Road Fields Landing CA 95537 |
| Telephone | Telephone number 707-443-9323 |
| E-mail | mail@eti-usa.com |
| Contact person | Technical Director |
| Emergency phone number | CHEMTREC 800-424-9300 |

2. Hazard(s) identification

Physical hazards: Organic peroxides

Health hazards: Acute toxicity, oral Category 4
Skin corrosion/irritation Category 1
Serious eye damage/eye irritation Category 1

OSHA defined hazards: Not classified.

Label elements

Signal word: Danger

Hazard statement: Heating may cause a fire. Harmful if swallowed. Causes severe skin burns and eye damage.

Precautionary statement

Prevention: Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Keep/Store away from clothing and other combustible materials. Keep only in original container. Do not breathe mist or vapor. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection.

Response: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. If swallowed: Rinse mouth. Do NOT induce vomiting. If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center/doctor. Specific treatment (see this label). Store locked up. Store at temperatures not exceeding 25°C / 77°F. Keep cool. Store away from other materials.

Disposal: Dispose of waste and residues in accordance with local authority requirements. None known.

Supplemental information: Not applicable.

3. Composition/information on ingredients

Mixtures

| Chemical name | CAS number | % |
| Benzenedicarboxylic Acid Derivative | Proprietary | 10-50 |
The identities of the materials in this product are withheld as a trade secret (29CFR1910.1210(i)) and are available to a physician or paramedical personnel in an emergency situation.

**Composition comments**
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

**4. First-aid measures**

**Inhalation**
Remove victim to fresh air and keep at rest in a position comfortable for breathing. For breathing difficulties, oxygen may be necessary. Get medical attention if symptoms occur.

**Skin contact**
Immediately flush with plenty of water for at least 15 minutes. Take off immediately all contaminated clothing. Get medical attention immediately. Wash contaminated clothing before reuse.

**Eye contact**
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

**Ingestion**
Rinse mouth. Do NOT induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Never give anything by mouth to a victim who is unconscious or is having convulsions. Call a poison control center immediately.

**Most important symptoms/effects, acute and delayed**
Contact with this material will cause burns to the skin, eyes and mucous membranes. May have a corrosive effect on the digestive canal.

**Indication of immediate medical attention and special treatment needed**
Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

**5. Fire-fighting measures**

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Unsuitable extinguishing media**
Water. Do not use water jet as an extinguisher, as this will spread the fire.

**Specific hazards arising from the chemical**
Contains an organic peroxide. Strong oxidizer - contact with other material may cause fire. Heat may cause the containers to explode. During fire, gases hazardous to health may be formed. The heat of decomposition of the peroxides adds to the heat of the fire. Dry chemical fire extinguishing agent may catalyze the decomposition.

**Special protective equipment and precautions for firefighters**
Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

**Fire-fighting equipment/instructions**
Move containers from fire area if you can do so without risk. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.

**Specific methods**
Cool containers exposed to flames with water until well after the fire is out.

**6. Accidental release measures**

**Personal precautions, protective equipment and emergency procedures**
Keep unnecessary personnel away. Wear protective clothing as described in Section 8 of this safety data sheet. Ensure adequate ventilation. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Do not breathe mist or vapor. Do not get in eyes, on skin, on clothing. Keep out of low areas. Local authorities should be advised if significant spillages cannot be contained.

**Methods and materials for containment and cleaning up**
This product is miscible in water. Refer to attached safety data sheets and/or instructions for use. Ventilate area. Extinguish or remove all ignition sources. Remove or isolate flammable and combustible materials. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Use water spray to reduce vapors or divert vapor cloud drift. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Never return spills to original containers for re-use. Collect and dispose of spillage as indicated in section 13 of the SDS.

**Environmental precautions**
Avoid discharge into drains, water courses or onto the ground. Runoff from fire control or dilution water may be corrosive and/or toxic and cause pollution. Avoid discharge into storm drains, water courses or onto the ground.
7. Handling and storage
Precautions for safe handling
Provide adequate ventilation. Avoid breathing mist or vapor. Do not get in eyes, on skin, on
clothing. Keep away from all ignition sources including heat, sparks and flame. When using spray
equipment, never spray raw MEKP into curing or in to raw resin of flues. Keep out of reach of
children. Wear appropriate personal protective equipment (See Section 8). Wash hands
thoroughly after handling. Observe good industrial hygiene practices. Do not handle roughly. Avoid
shock, dropping and dragging etc.

Conditions for safe storage, including any incompatibilities
Avoid contact with combustible materials (hay, grain, diesel, etc.). Keep out of the reach of
children. Keep only in the original container. Store in tightly closed original container in a dry, cool
and well-ventilated place. Store away from incompatible materials, see Section 10 of the SDS.
Store locked up. Keep away from heat, sparks and open flame. Protect from direct sunlight.

8. Exposure controls/personal protection

Occupational exposure limits

**US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)**

Exposure guidelines

Use personal protective equipment as required. Keep working clothes separately.

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates
should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation,
or other engineering controls to maintain airborne levels below recommended exposure limits. If
exposure limits have not been established, maintain airborne levels to an acceptable level. Eye
wash facilities and emergency shower must be available when handling this product. Provide
adequate ventilation and minimize the risk of inhalation of vapors.
Individual protection measures, such as personal protective equipment

**Eye/face protection**
- Wear safety glasses with side shields (or goggles).

**Skin protection**
- Chemical resistant gloves.
- Wear appropriate chemical resistant clothing. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material. Wear appropriate chemical resistant clothing to prevent any possibility of skin contact.

**Respiratory protection**
- In case of insufficient ventilation, wear suitable respiratory equipment. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

**Thermal hazards**
- Wear appropriate thermal protective clothing, when necessary.

**General hygiene considerations**
- When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Wash at the end of each work shift and before eating, smoking and using the toilet.

**9. Physical and chemical properties**

**Appearance**
- Water white liquid.

**Physical state**
- Liquid.

**Form**
- Liquid.

**Color**
- Clear.

**Odor**
- Slight.

**Odor threshold**
- Not available.

**pH**
- Not available.

**Melting point/freezing point**
- Not available.

**Initial boiling point and boiling range**
- Not available.

**Flash point**
- 200.0 °F (93.3 °C)

**Evaporation rate**
- Not available.

**Flammability (solid, gas)**
- Not available.

**Upper/lower flammability or explosive limits**
- Flammability limit - lower (%)
  - Not available.

- Flammability limit - upper (%)
  - Not available.

- Explosive limit - lower (%)
  - Not available.

- Explosive limit - upper (%)
  - Not available.

**Vapor pressure**
- Not available.

**Vapor density**
- > 1

**Relative density**
- 1.1

**Solubility(ies)**

- Solubility (water)
  - Slightly soluble in water.

- Partition coefficient (n-octanol/water)
  - Not available.

- Auto-ignition temperature
  - Not available.

- Decomposition temperature
  - Not available.

- Viscosity
  - Not available.

**Other information**

- VOC (Weight %)
  - 3.7 %

**10. Stability and reactivity**

**Reactivity**
- May form peroxides. Read and follow manufacturer's recommendations.

**Chemical stability**
- Stable under recommended storage and use conditions. Please read and follow all instructions.

**Possibility of hazardous reactions**
- Hazardous polymerization does not occur.

**Conditions to avoid**
- Avoid temperatures exceeding the flash point. Contact with incompatible materials. Heat, sparks, flames, elevated temperatures. Protect against direct sunlight.

**Incompatible materials**
11. Toxicological information

Information on likely routes of exposure

**Ingestion**
Under normal conditions of intended use, this material does not pose a risk to health. May cause digestive tract burns. Harmful if swallowed.

**Inhalation**
Under normal conditions of intended use, this material is not expected to be an inhalation hazard. May cause irritation to the respiratory system. Prolonged inhalation may be harmful.

**Skin contact**
Causes skin burns.

**Eye contact**
Causes serious eye damage.

Symptoms related to the physical, chemical and toxicological characteristics

Contact with this material will cause burns to the skin, eyes and mucous membranes. May have a corrosive effect on the digestive canal.

Information on toxicological effects

**Acute toxicity**
Harmful if swallowed. May cause digestive tract burns.

* Estimates for product may be based on additional component data not shown.

**Skin corrosion/irritation**
Causes severe skin burns and eye damage.

**Serious eye damage/eye irritation**
Causes serious eye damage.

**Respiratory or skin sensitization**

**Respiratory sensitization**
Based on available data, the classification criteria are not met.

**Skin sensitization**
Not classified as a sensitizer.

**Germ cell mutagenicity**
Based on available data, the classification criteria are not met.

**Carcinogenicity**
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

**IARC Monographs. Overall Evaluation of Carcinogenicity**
Diluent (CAS Proprietary) 3 Not classifiable as to carcinogenicity to humans.

**Reproductive toxicity**
Based on available data, the classification criteria are not met.

**Specific target organ toxicity - single exposure**
Not classified.

**Specific target organ toxicity - repeated exposure**
Not classified.

**Aspiration hazard**
Not available.
12. Ecological information

Ecotoxicity
Expected to be harmful to aquatic organisms.

Mobility in soil
No data available.

Other adverse effects
None known.

13. Disposal considerations

Disposal instructions
Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations.

Local disposal regulations
Dispose in accordance with all applicable regulations.

Hazardous waste code
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

US RCRA Hazardous Waste U List: Reference

<table>
<thead>
<tr>
<th>Component</th>
<th>Waste Code</th>
